Tommies Lose Slightly Under Heavy Counter Attack by the Enemy at Moeuvres; Macedonian Drive Four Miles Deep, Says Paris Statement.

## PEACE DEMONSTRATION AT BERLIN IMPENDING

LONDON, Sept. 18.—British forces attacked this morning northwest of St. Quentin, according to an official report from Field Marshal Haig received at the war office this forenoon. The village of Holnon, three miles northwest of St. Quentin, has been captured by the British, the field marshal reported. A German attack last evening at Moeuvres, under heavy artillery protection, resulted in the British being pushed back to the western outskirts of the village.

## OFFENSIVE ON THE MACEDONIAN FRONT TO CUT OFF TURKS

WASHINGTON, Sept. 18.—It has been hinted in military circles for some months that this autumn would see a major operation on the Macedonian front and from the news of the past few days it appears that the operation has begun. While it is not possible for military reasons to give the number of men intended to participate in this movement, its object is clear, to cut off Turkey from the Balkans and from the sea. The offensive is directed against the Bulgarians, who are fighting the Turks, and the Jugo-Slavs of Southern Austria.

## GERMAN ATTACK ON AMERICANS FAILS WITH THE AMERICAN ARMY ON THE LORRAINE FRONT, Tuesday, Sept. 17—German and Austrian prisoners taken in the recent advance by the Americans in this section displayed great interest when they learned of the American peace suggestion when they were taken after their capture. They made no effort to conceal their discouragement when assured by the American soldiers that peace is a long way off unless Germany is willing to admit she is beaten.

Observers reported this morning that there were no living Germans in the region where they were sighted last night. Quite a number of dead, however, were seen.

## AUSTRIAN PRISONERS LONG FOR PEACE

WITH THE AMERICAN ARMY ON THE LORRAINE FRONT, Tuesday, Sept. 17—German and Austrian prisoners taken in the recent advance by the Americans in this section displayed great interest when they learned of the American peace suggestion when they were taken after their capture. They made no effort to conceal their discouragement when assured by the American soldiers that peace is a long way off unless Germany is willing to admit she is beaten. Stories told by the prisoners nearly all indicate a lack of harmony between the Austrians and Germans and reflect the lowered morale of the Central Powers. The prisoners' conversation shows that they realize the hopelessness of success and their belief that they are fighting for some object which to them is apparently not clear. Individually the captured men are in good condition. They are well clothed, well fed and healthy.

## ANOTHER PEACE DEMONSTRATION IN BERLIN REPORTED

The malady is much more severe than the ordinary form and is characterized by high temperature, severe aches and pains and profuse discharge from the eyes and nose.

## QUESTIONNAIRES IN MAILS FOR MEN 19 TO 36 YEARS

First Batches Sent Out Today By Two Local Draft Boards.

## OTHERS FROM DAY TO DAY

Care in Filling Blanks Urged Upon Registrants; Advisory Boards to Give Assistance; Copying of Serial Numbers Strongly Fenced on Men.

Local Boards for Districts Nos. 2 and 5 today sent out questionnaires to the registrants of September 12, who are between the ages of 19 and 36. Local Board No. 5 sent out 1,309 blanks and will complete the mailing of questionnaires tomorrow. Local Board for District No. 2 sent the first 10 per cent of the blanks and will continue to send them out each day until the full number has been mailed.

It is suggested that when registrants receive their questionnaires to copy the serial numbers on the back of their registration card. The only way a registrant can learn his serial number is by taking it from his questionnaire or by copying it from the newspapers. It is important that all registrants know their serial numbers.

Local boards have experienced much difficulty with questionnaires that have not been properly filled out by some justices of the peace and lawyers, making it necessary to write personal letters to the registrant to get definite information on certain questions. The board members ask that more care be exercised in filling out the new blanks. The boards also point out to registrants that they should not pay anyone for anything in connection with the filling out of a questionnaire or filling of an affidavit. If a justice of the peace will not take an affidavit without pay, the registrant should go to someone else or notify the local board. The legal advisory board, consisting of lawyers and others who will assist registrants in filling in the blanks will hold a meeting tomorrow, and will then be ready to aid the registrants in answering the various questions.

## REGISTRATION OF VOTERS YESTERDAY AGAIN QUITE LIGHT

Figures, However, Are in Excess of Those of the First Day; October 5 Last Opportunity.

Less than 100 persons were registered yesterday for the November election in Connellsville as compared with 247 the first day. At no time during the day was there any indication of a rush. The final day to register is Saturday, October 5. The figures by wards were:

Ward	Registrants
First ward	42
Second ward	64
Third ward	68
Fourth ward	51
Fifth ward	47
Sixth ward	43
Seventh ward	72

## Total

Statistics as to parties were not available at all the wards. In the Second 45 Republicans enrolled as compared with 38 Democrats, two Prohibitionists and one Socialist. In the old Democratic stronghold, Third, the registration showed 37 Republicans, 30 Democrats and one Socialist. In the Seventh ward there was only a scattering of Democrats, the registration being almost solidly Republican. The same was true in the First ward.

## MAY DONATE PART TO COUNTY CHAPTER BUT THIS IS PURELY OPTIONAL, RULING RECEIVED

REV. M. J. BARKER IS COMMENDED FOR HIS VALOR AT THE FRONT

Episcopal Minister, Well Known Here, Dresses Wounds of Men Within 20 Yards of Enemy.

The heroism of Rev. Mandeville J. Barker, former assistant rector of St. Peter's Episcopal church in Uniontown, who is now chaplain with the American Expeditionary forces, is told in official notices from the National War Work Council of the Y. M. C. A. just received. In a letter written by Rev. Barker to Rev. A. N. Clayton of Uniontown, he told of going over the top with the men of his company. The National War Work Council's official report issued in New York yesterday follows:

"The Rev. Mandeville J. Barker of Uniontown, Pa., has been commended for valor by the commander of the brigade to which he is attached as a Y. M. C. A. worker, according to word just received by the National War Work Council of the Y. M. C. A. Going out ahead of the machine guns during an attack in the Aisne sector, he dressed the wounds of Americans and German alike, at one time being only 20 yards distant from a German outpost, from which he was hidden by a slight rise of ground.

"May T. N. Vail of Harrisburg, Pa., was in command of the machine gun detachment which went in advance of the infantry in an attack on positions at Glennes. They went ahead and opened an enfilading fire that carried the day. Capt. John Wasnes of Scranton, Pa., led one group that got into some of the hottest places.

"Out in front of them toiled the Rev. Barker, working along on his hands and knees and finding plenty of call for his bandages and dressings. The clergyman came upon one German wounded in the leg, who was limping toward his own lines. Though unarmed, the 'Y' man halted him and bandaged the wound of the man, who was grateful enough to let the good Samaritan make his getaway."

Letter From Chapter Organization Bureau Settles Case.

## FEAT AN ASTOUNDING ONE

Communication to County Chairman J. Fred Kurtz Expresses Surprise That So Much Money Could be Raised by the Means Adopted.

According to a communication received by J. Fred Kurtz, chairman of the Fayette County chapter of the Red Cross, the Connellsville branch will be permitted to retain the money raised during the Red Cross fair in the local treasury and dispose of it as deemed advisable. If Connellsville wishes to make a donation of any of the sum to the county chapter, designating its use, such action may be taken. The letter written by Richard E. Wilson, director of bureau of chapter organization, follows:

"My Dear Mr. Kurtz: We have just had a most interesting visit from your executive secretary, Mr. W. P. Schenck. I think probably he has benefited greatly by his investigations at division headquarters. I have been much pleased by his account of your chapter's success. The set up of your chapter so nearly approaches the ideal that I anticipate only the very best results, with either none or a minimum of trouble.

"Mr. Schenck has called to my attention, however, the resolution recently passed by your board requiring all branches to remit all money to the chapter. May I point out that this is a departure from Red Cross regulations. It is true that branches are required to remit intact all receipts from membership fees, and of funds received on account of National appeals, or of contributions not specifically for branch maintenance.

"Branches, however, are permitted and, in fact, should be encouraged to cover their own running expenses, such as rent, janitor service, transportation and the like, by means of local entertainments expressly given for that purpose. Such moneys are received and disbursed by the treasurer of the branch and are reported to your chapter on forms 204 and 213. Regulations in this respect for branches apply also to auxiliaries. I trust you may see your way clear to modify your resolution accordingly."

Mr. Kurtz said this morning that although the letter does not specifically state the resolution should be withdrawn, the matter would be taken up at a meeting of the executive committee in Uniontown this afternoon.

The letter was read before a meeting of the Red Cross fair committees held at the Maccabee building last night. Mr. Kurtz said he wished it clearly understood that when the county officials made the resolution directing all funds into one treasury, it was done in the best of faith, and not merely to enable the county to lay hands on the money raised by the fair, although the resolution was passed only previously to the staging of the benefit.

Chairman Kurtz said Director Wilson supplemented his letter by a statement to Secretary Schenck that although the Red Cross encouraged local benefits for the raising of funds to cover such expenses as rental, janitor, etc., it did not encourage or approve such large scale entertainments as was put on in Connellsville to yield such large sums of money. He said the Red Cross was amazed and surprised that Connellsville could raise such a large amount of money through a street fair, and at the same time much pleased at the patriotic spirit shown by the community. Mr. Wilson said it was the opinion of Red Cross officials that anything put on on such a large scale was a positive hindrance to war drives and national appeals made by the Red Cross as it detracted from the giving power of the community.

Referring to the action of the county officials in passing a resolution directing all the moneys of the branches into one treasury, Chairman Kurtz said there were three things prompted the ruling. 1. minimized accounting, and also enabled officials to know just what funds were available in the county.

Third, certain communities have taken it on themselves to go to open markets and purchase goods at a retail price, whereas if the money had been turned over to the county, the material would have been bought through the bureau of supplies, thereby creating a saving in the price and also getting a standard goods.

Learn When to Be Silent.  
The union of good talker and listener is irresistible. Tact should teach us when to be silent. We have made progress when we realize that it is unnecessary to continually be explaining everything in detail. We see from the statistical record, and the too personal "I" in conversation, personally reiterating the "I have done" and "I have not done"—an attitude significant perhaps of women's penchant for failing to grasp ideas in a large way.

## WHY RUN-DOWN PALE EXHAUSTED WOMEN SHOULD TAKE IRON

"There can be no beautiful, healthy, strong-willed woman without iron. When the iron goes from the blood of women, their cheeks lose their color and attractiveness, their eyes grow dim, their nerves are shattered, their stomachs are deranged, and they become pale, run-down, and exhausted. Nuxated Iron (not metallic iron which often corrodes the stomach and does more harm than good). Nuxated Iron is easily assimilated, does not blacken the teeth, nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, care-worn, haggard women in two weeks' time in many cases. I have used it in my own practice with most surprising results."—Ferdinand King, M. D., well-known New York Physician and medical author. (Scientific preparation of money refunded—On sale at all good druggists.)

# THE WAR & THE FASHIONS

## AUTUMN - 1918 - WINTER

The Season's Commencement

This annual introduction of the Autumn Fashions has come to be of the utmost interest and importance. Not only does it usher in the Autumn season proper, but it covers the situation of the new styles completely, presenting the modes from the recognized stylists in an orderly array for the quicker and clearer understanding of the changes in line and treatment, and for observing the new ideas carried to such successful completion in the styles on exhibition.

Recognizing that "style" governs all merchandise from gowns to gloves and from hats to handkerchiefs, this exposition has been carefully planned to present a comprehensive picture of all the styles.

The most interesting section of the store will naturally be that of the outer apparel and the daily program of display in this section will be the most interesting in years.

This store bids you welcome to its formal opening of the Autumn and Winter season

#### THE PARAMOUNT.

"THE FIRES OF YOUTH."—In which Ruth Clifford is seen as Lucile Linforth, a radiant beautiful girl of 22 married to a rich man, is being shown today. In desperation Lucile tries to awaken desire in his heart when she sees around her the working out of nature's greatest law. Content to have her as a beautiful hostess at his table and to lavish fine clothes upon her, John Linforth forgets that his wife needs something besides money. The love instinct is dead within him. Into his home comes Ronald Sandish, a clean-cut young fellow sent to Linforth by a

friend to whom he is under obligation. Ronald and Lucile realize with misgivings that they are in love. They decide to elope but before they get out into the garden, Ronald's better self comes to his rescue and they part happy that they have been strong enough to resist the "fires of youth." Later Linforth divorces his wife so that she and Sandish may marry. A selected comedy is also being shown. Tomorrow June Elvidge, supported by Frank Mayo, John Hines and others will be presented in "The Power and the Glory," a five part World feature of unusual excellence. Friday and Saturday Mabel Normand will be starred in "The Venus Model," a Goldwyn attraction. In this production Miss Normand surpasses all other favorites as a comedienne of a different sort. She is given the opportunity to do the very things in

which she has no equal.

#### ARCADE THEATRE.

The attraction at the Arcade the last three days of this week is the Baker Musical company. This company was originally booked for the entire week, but owing to the difficulties of transportation, was unable to arrive in time to open Monday, the management being compelled to book another entire show for the first three days. This show is a positively guaranteed attraction and it will please all the patrons of the popular playhouse. The company is composed of 10 people, three funny comedians and seven pretty girls. On the screen Thursday will be seen another episode of the "Fight for Millions," featuring William Duncan. Friday and Saturday there will be another one

of these screaming Fox comedies. Lyons All Americans will be the attraction at this theatre next week.

#### ORPHEUM THEATRE.

"VIVETTE."—Vivian Martin, in her latest Paramount picture, "Vivette," has a part that is admirably suited to her charms. She enacts the character of a pretty little boarding school girl, who returns to her home at Ware Manor in England to have three men of widely different types fall in love with her. One is Dick Ware, a strong, somewhat primitive man, another is his brother Austin, a young London barrister, and the third is Lord Banstead. How these three men fight for her hand and the complications which the struggle brings about make this a most engaging story.

**If I Were to Leave Conneltsville.**  
And vicinity, where can I go to better myself? This thought is passing through many minds. Now comes the man of the hour who knows. The writer is the man who knows. Having spent his boyhood days here, he does know and knows it well that some places are better than other places, and all business men do know that a person can stay too long in one place. He does not come here to tell the merchants, the working man in all stations of life to leave this vicinity. If you are going well, stay here and be contented. If any one is desiring a change in location in a new town of wonderful opportunities, see the man who knows. This man who will show the opportunities free of cost. I am not offering anything for sale now. The man who knows looked for opportunities from ocean to ocean and can say without fear of contradiction that the best opportunities for common people are in the vicinity of Pittsburg, Philadelphia and the Delaware river. The man who knows can be seen at the Hotel Royal Thursday and Friday of this week from 2 P. M. until 8 P. M. Ask for "The Man Who Knows," and his talk may be helpful to you. His name is Snyder.—118-31.

**Fight at Vanderbilt.**  
As a result of an encounter yesterday between Walter McCune of Vanderbilt, formerly in the National Army at Camp Lee, and William Mickey, of Dickerson Run, a Pittsburg & Lake Erie railroad man, charges were preferred by McCune before Alderman Fred Munk against Mickey and also against Blaine Heller, who is alleged to have urged on the trouble. McCune claims the attack was unprovoked. Constable Rull dispersed the crowd that had collected at the scene, Vanderbilt.

## You Can't Eat Meat 100 Miles Away

Preparing meat is only a part of Swift & Company's usefulness.

The finest meat in the world wouldn't do you any good one hundred miles away from your table.

Swift & Company efficiency has made it possible to place complete lines of products in the smallest and most remote communities.

To be sure the work is done well Swift & Company, through its branch houses and car routes, brings the meat to the retail dealer for you.

Swift & Company lays out car routes covering towns—big, little, medium size—which are not served by a Swift branch house.

Salesmen find out in advance what is wanted by the dealers in every town.

They are followed by refrigerator cars loaded with retailers' orders, which are delivered at each town—fresh, clean, and sweet—once or twice each week.

Swift & Company operates a large number of car routes like this, from fourteen distributing plants.

This is a necessary and natural part of the packer's usefulness. It fits into the industry in an orderly, effective way. It makes *better meat cheaper* from one end of the land to the other.

Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in this condition. I give you permission to publish this letter."—Mrs. E. R. CHUMING, R. No. 1, Hellam, Pa.

GERMANY MUST BE PUT IN BOXES

Senator Lodge, whose recent enun-  
ciation of the essentials of a lasting  
peace qualified him to serve as the  
spokesman of both the Republican  
party and the Senate on the subject  
of peace, has, next to President Wil-  
son himself, given clear cut expres-  
sion of the public's attitude on the  
Austro-Hungarian suggestion to hold  
a secret, "non-binding" discussion of  
peace terms.When Prussian militarism is  
crushed, and the Germans throw up  
their hands, then the United States  
and her allies will tell them the terms  
of peace which they are to accept,"  
Senator Lodge declared. "Until com-  
plete victory is reached on German  
soil any negotiations or discussion  
with our enemies would mean that  
the war was lost, our sacrifices in vain  
and our high purpose defeated. There  
is much hard fighting yet to be  
done, many sacrifices still to be made,  
but the light of victory is shining upon  
our armies and upon those of our  
Allies."We shall press on until the only  
end worthy of attainment is fully  
reached. Germany has brought un-  
numbered woes upon an innocent  
world. She must be put in a position  
where she cannot strike again. She  
has appealed to the lust of conquest,  
the dread arbitrariness of arms. By  
that she must abide. She shall not  
now resort to talk and bargain for a  
decision."We mean to put her in physical  
bonds. We mean to make the world  
safe for all free, law-abiding, decent  
people so that they may live their  
lives in peace, unthreatened and un-  
alarmed. For this we fight. We shall  
not ask more. We shall never accept  
less."On to Berlin! Get the Kaiser!  
Then Peace!A CONTRAST IN LATE  
CHARACTER.The Democrats are claiming in the  
Congressional campaign now on in  
different parts of the country, that all  
the credit for the enactment of the  
selective service law should go to  
them. Through a convenient lapse of  
memory they fail to recall that  
Speaker Clark left the chair during the  
consideration of the measure and  
went upon the floor of the House, and  
made an impassioned plea against the  
passage of the proposed "high-hand-  
ed" measure. Other Democrats also  
balked at supporting this so-called  
"interference with the rights of  
citizens." Now that the wisdom  
of the law has become apparent even  
to such ardent objectors as Speaker  
Clark, the Democrats both in Con-  
gress and out of it would like to ap-  
propriate to their party the political  
capital that rightly accrues from  
provident legislation.As a simple matter of record in the  
proceedings of Congress on this law  
it appears that although the Demo-  
crats had a safe majority, it was  
only through wise Republican lead-  
ership and the votes of Republican  
members that the nation has been  
provided with the superb Army which  
is now the nation's pride and gloryand which will save the world from  
Prussian domination. Preceding the  
war the Republicans urged prepara-  
tion for the inevitable part that we  
were to have in the conflict, and from  
the day war was declared they have  
advocated and supported every "Win  
the War Now" policy that has had the  
merit of practicability.While the Democrats were pettifog-  
ging in Congress on the selective ser-  
vice measure the Republicans were  
striking straight from the shoulder to  
secure its early passage. When the  
Democrats could not make up their  
minds, whether to vote for or against  
conscription, the Republicans were  
obliged to do it for them. While the  
Democrats were fishing around with  
countless excuses for delay, the Re-  
publicans had the vision of a plain  
military necessity which the Demo-  
crats have since realized, but only  
second-handed, so to speak. While  
the Democrats were playing their  
petty, time-serving game of political  
trade and maneuver, the Republicans  
rose, as statesmen, to the imperative  
need of the hour.The record of the two parties on the  
selective service law—upon which  
our success in the war fundamentally  
depends—offers a clear contrast in the  
character of our two great polit-  
ical parties in times of national  
crisis. The Democrats did not know  
what to do, or were fearful of doing  
the politically wrong thing, therefore  
they tried to do nothing, only to see  
what was necessary to be done after  
the Republicans had pointed the way.  
The Republicans saw clearly and  
quickly what to do, and then stood  
ready to act even though it meant the  
sacrifice of party advantage.Can there be any doubt as to which  
party should dominate the next Con-  
gress and be entrusted with the vitally  
important task of legislating for the  
country during the closing period of  
the war and the reconstruction that  
must follow?The Republicans have proven them-  
selves fitted to conduct the affairs of  
the nation in the gravest crises in its  
history, as they have also proven  
themselves fitted to develop its pros-  
perity upon such stable lines that has  
made it possible for us to become the  
deciding factor in the Great World  
War. It is only Republicans who may  
be trusted to wisely and adequately  
provide for the nation all that it re-  
quires for an early, victorious peace,  
and for the "after the war" problems  
which will press for consideration and  
solution by the next Congress—the  
most important in the history of the  
nation.The near approach of election was  
too severe a strain upon Director Gen-  
eral McAdoo's "out of politics" order  
and he decided to permit those already  
in office to serve out their terms and  
those who have been nominated or  
become candidates before the order  
was issued to continue in the railroad  
service until elected. Which, in diplo-  
matic language, is merely restoring  
the status quo ante, made necessary,  
no doubt, by the fear that some anti-  
McAdoo candidates might be restored  
to places now held by "deserving  
Democrats."Life for the Hun is just one hard  
bump after another these days. It is  
not in Flanders, in the St. Mihiel salient,  
in Picardy, it is in Macedonia, or in  
the field of diplomacy, and they all  
hurt.The romantic bugle call is no longer  
to be heard by American troops in  
action, but all they need is to be  
shown where to go and they will get  
there just the same.These cool nights are getting too  
close the front line for the late gar-  
dens to stay out late.Even if "Mitch" Palmer's state  
committee won't play with Bonwill  
in the game, the latter does not in-  
tend that the game shall stop. He  
will simply organize a new team of  
his own that is guaranteed not to be  
lost in Pennsylvania and "wet" in  
Washington.The most urgently needed change  
in South Arch street is a change in  
its condition from an impassable to a  
passable thoroughfare.Even the "done for" Little Army of  
Serbia, as the Kaiser had boasted of  
its fate, has come back to be in at the  
finish of the game.

## A Peace That is Treason to God.

The Richmond Virginian.

Let us not be deceived. There  
are those that talk of peace with  
Germany—peace by agreement.  
Happily such men are few. They  
are cowards—physical, spiritless  
cowards. It cannot be said they  
are ignorant, because wherever  
you find one he is trained and in  
the majority of cases proficient in  
the German language and its clas-  
sics. They know the history of  
the race. They know its religion  
and philosophies.These paragraphs permit of  
little discussion of the German  
character. The Prussian state  
religion can be summarized in the  
trinity of "Force, Falseness,  
Fraud." Peace by agreement  
means to accept Germany's word.  
Germany promised Secretary Lan-  
sing, with solemn assurances,  
after the sinking of the Lusitania  
that there would be no more  
destruction of neutral ships with-  
out warning. Within a month she  
sent an American Red Cross ves-  
sel to the bottom of the seas  
loaded with nurses, food and  
medicine for the sick and starving  
children of Belgium. Her list of  
broken pledges would fill a page.Germany started the war to  
win by force and falsehood and  
fraud. All of these principles to  
her in war are super-moral. To-  
day her lungs are deep-set in the  
bleeding body of France—our  
France, our brave and heroic  
France. The gallant little nation  
of the Belgians lies gasping under  
the headless heel of Germany, the  
fruit of a forsaken faith. Dan-  
gers Serbia, proud in its sov-  
ereignty of a dozen centuries, re-

## LONG LINES OF YANKS STREAMING ACROSS FRANCE

The actual visualization of this British official picture is becoming a common occurrence in France. The Americans  
are arriving in great numbers and proceeding in lines like this to their camps or to the front.Cycling a line of defense extending  
from Antwerp to Metz to be called the  
Parisian line. The choice of the name  
indicates its certain fate when we re-  
member how the attempt to make  
Ferry fail was foisted by the Yankers  
on the banks of the Marne.I from the number of times the city  
council has been brought face to face  
with the garbage problem, there  
ought to be no difficulty about a  
mutual recognition when the question  
comes up for discussion again on  
Thursday night.There is little doubt but that the  
Kaiser would like to let go, as an un-  
founded rumor says he has done or  
is about to do, if he were only certain  
about having a soft and safe place in  
which to land.There are 22 forts surrounding  
Metz. Another German head-on as  
will be shown when "Prashing" gets  
ready to turn his 18-inch "barkers"  
loose upon the "strongest fortified city  
in the world," as Germans have long  
boasted of it.Fifteen-pound Son.

pounds, was born to Mr. and Mrs.

nhart was formerly Miss Margaret

## TWO WORLDS.

Two busy worlds are mine to face

The other, far removed from play,  
Is where I go to work each day.  
In one I must be very kind  
And keep a young and cheerful mind.  
And in the other strong and true  
And play the man in all I do.The world of business, day by day,  
Is linked unto my world of play.  
I cannot stop to work each day  
And let my world of play  
And then go to my world of joy  
To be a youngster with my boy.  
To keep my world of home serene,  
I must return, erect and clean.I must be old and youthful, too!  
I must be strong and wise and true.  
In one world I must play the man  
And serve in every way I can!  
But when the busy hours are done,  
I journey to the other one.  
And there I change into a boy  
To share a little fellow's joy.By day I bear the cares of men,  
By night I am a child again!  
I shut out life by night to live  
In one I tell from day to day.  
That I may know my world of play.  
And so to win life's fairest joy,  
I have to be both man and boy.Classified

## Run-Down People Vinol is What You Need

Weak, run-down nervous men and women need Vinol because it contains the most famous reconstructive tonics in an agreeable and easily digested form:—Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates.

We guarantee there is no tonic equal to Vinol.

### HERE IS PROOF

**Detroit, Mich.**  
"I got into a weak, run-down condition, no appetite, tired all the time and headaches—but had to keep around and do my housework. I read about Vinol and tried it—within two weeks I commenced to improve, and now have a splendid appetite and feel stronger and better in every way."  
—Mrs. John F. Watson.

**Texas, Texas.**  
"I keep house and I was weak, run-down and nervous, back ached a good deal of the time, so it was hard to take care of my chickens and do my work—Vinol has restored my strength, and my nervousness has gone, so I can do my work as well as ever. Every run-down woman should take Vinol."  
—Mrs. Emma Britt.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

## WORKERS PLAYING AT A VACATION GAME

ABOVE—COOLING OFF ON A HOT DAY. IN OVAL—ONE OF THE CAMP HOUSES FOR SWIFT & COMPANY EMPLOYEES. BELOW—OUTFOR ROW ON FISH LAKE.

THERE is a boast at the stockyards that nothing is wasted—that any part of an animal can be made into something—and this spirit of conservation extends to the plans for welfare work which one of the companies at least has formulated. For instance, Fish Lake, Indiana, which in winter furnishes ice for the refrigerator cars of Swift & Company could be made to produce fish for the state in summer time, and it does in quantities, but what to do with the wasted lands sur-

rounding the lake and ice house was a problem until some one thought of making it a vacation playground for city workers. Forthwith a large camp house was built and so popular was this free summer resort for the workers at Swift & Company's last summer that this year there are three houses. About half a mile apart are the two principal buildings—one for plant workers and one for office help. In between is the boys' camp. Here the youngsters who

have completed the required twenty weeks of school at the plant in the city may go for two weeks of fun. They are under the care of a camp master. The camp houses are spacious and well equipped. The screened in porches furnish sleeping places, dormitory style, and a trained welfare worker manages the houses and sees that meals, recreation plans and rest comfort are provided according to modern and approved methods.

### IGNORED NAVY TEAM TO PLAY FOR YANKS

Bob Shawkey Made Mistake by Pitching for Old Team.

Offer of \$100 Per Game From New York American League Proves Too Strong for Hurler and He Is Transferred.

Thomas Robert W. Shawkey, U. S. N., is now at sea, having been transferred from the League Island navy yard at Philadelphia, where he was in command, to a transport.

According to statements made to the writer by a certain Philadelphia, Bob's sea trip followed his decision to pitch for the Yankees when his services were desired by the League Island team, writes John W. Lawrence in New York Mail.

Shawkey pitched several games for the Yankees in Philadelphia and Washington after he entered the navy, joining the team while he was on furlough.

It happened that on one or two of these occasions the League Island team put in a bid for Shawkey's services. He was a member of this team at the time and had pitched several games for it.

Bob didn't know just what to do, but an offer of \$100 a game from the Yankees assisted him materially in making up his mind.

The League Island team, played without Shawkey and lost. Bob pitched winning ball for his old teammates against the Athletics and the Senators.

**A. A. Clarke Says**  
After each meal—YOU eat one **EATONIC** FOR YOUR STOMACH'S SANK! and get full food value and real stomach comfort. Instantly relieves heartburn, bloated, gassy feeling, STOPS acidity, food repulsing and stomach misery. AIDS digestion; keeps the stomach sweet and pure.  
EATONIC is the best remedy and only costs a cent or two a day to use it. You will be delighted with results. Satisfaction guaranteed or money back. Please call and try it.  
A. A. Clarke, Corner N. Pittsburgh St. and X. Alley, Connelldale, Pa.

Bob Shawkey.

This, according to our informant, had an altogether retrogressive effect on the great twirler's popularity in Philadelphia navy circles.

Shawkey discovered that he'd made a diplomatic blunder that even his winning personality couldn't wipe out. He found that he was politically in wrong.

A few days ago Bob received orders transferring him to sea duty and he is now on an eastward-bound transport.

### HOPE FOR ARMY-NAVY GAME

President Hempstead of Giants Endeavoring to Stage Historic Gridiron Struggle.

President Harry N. Hempstead of the Giants has not yet abandoned hope of staging the Army-Navy football game at the Polo grounds next fall, in spite of the fact that the historic gridiron struggle was not held as usual last year because of the war. Hempstead says that there is an almost unanimous sentiment in army circles for the holding of the game this year. Last fall the contest was frowned upon in official circles for the reason that it was feared the attention of the cadets at West Point and Annapolis would be taken from their work in the week preceding the game and that, in view of such possibility, nothing must be allowed to interfere with their training.

### BUNTING AN ACQUIRED TRICK

Players Who Can Lay Down the Ball Don't Do It Naturally—Is Sacrificial Rite.

It may be true that the hitter in baseball is born, not made, but not so with the bunter, says a baseball wise man. The successful bunter is a manufactured article. Here the mind plays an important part. Instead of going up to the plate with the sole idea of taking a healthy, untrammelled swing at the old apple, the artistic bunter must choose his bat, hold it so it will give, make a quick, but accurate, stab into the pathway of the ball and let the ball do the rest.

There is still more. Bunting is primarily a sacrificial rite, so to speak, and the batter with orders to bunt must make his desire to beat out the hit secondary to the proper advancement of the base runner.

The trouble with most players who essay to bunt is their tendency to start running before they hit the ball. As a consequence, they either foul off, miss altogether or drive it directly at the pitcher. They have no chance at all to place the globe where the infielders least expect it.

### FOOTBALL PLAYER IS KILLED

Philip Mills, Former Harvard Star, Meets Death While Fighting in France.

Capt. Philip O. Mills, former Harvard football player and a son of the late Gen. Samuel M. Mills, U. S. A., was killed in action July 25. Previous to America's entry in the war Captain Mills drove an ambulance in France. Captain Mills was a graduate of St. Paul's school, N. H., and Harvard university, 1905. He was a member of the university football eleven for three years, playing tackle.

### GRAVATH TELLS HOW TO BAT

Recommendations as Aid to Long Drives That Stick Be Held Tightly—Must Be Good Guesses.

Gravath, the Philadelphia home run hitter, recommends as an aid to long drives that the bat be held tightly. After 10 years' experience in bunting the clever right fielder says all one has to do is to hit the ball and hope it sails far, far away. When one stands up to the plate he must guess what the pitcher is going to throw. The only thing necessary is to be a good guesser. In order to be ready to slug a curve or a fast one.

### EX-WHITE SOX TO BE FLYER

Jimmy Breton, Together With R. Peterson, Graduated From School of Military Aeronautics.

Two well-known athletes graduated at the United States school of military aeronautics at University of Illinois the other day. They are Jimmy Breton, former White Sox player, and R. Peterson, University of Illinois pitcher. Both go to Southern flying fields.

**.22 Caliber Rifles and Cartridges for Shooting Right**

EVERYBODY is beginning to see the difference between right rifle shooting and aimless "porting ground" and go-as-you-please "target shooting." The trend of the times toward efficiency is leading thousands to follow the Government's wishes and shoot the official N. R. A. small-bore courses (not military) adopted for civilian and junior marksmen.

Remington-UMC .22 Caliber Rifles and Cartridges, made to shoot right, are first choice for this shooting, because they measure up to the highest standard of accuracy required. Get in line with a Remington-UMC .22 Caliber Rifle and Remington-UMC Cartridges and win the official Government decorations awarded for proficiency by the National Rifle Association.

Sold by Sporting Goods Dealers in Your Community

For information about the new Small-Bore Courses, ask the Secretary of any civilian or youth rifle club, or address the National Rifle Association, 1108 Woodward Building, Washington, D. C.

## Insists That Frail, Nervous Women Can Speedily Become Strong and Vigorous

A Vigorous Healthy Body,  
Sparkling Eyes and Health-  
Colored Cheeks Come in Two  
Weeks, Says Discoverer of  
Bio-feron.

World's Grandest Health  
Builder Costs Nothing  
Unless It Gives to  
Women the Buoyant  
Health They Long for.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so confident that they would compel the admiration of all their friends.

The vital health building elements that these discontented women lack are all plentifully supplied in Bio-feron. If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feron right away.

It costs but little and you can get an original package at any drugstore anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started, your money is waiting for you. It belongs to you, for the discoverer of Bio-feron doesn't want one penny of it unless it helps all claims.

Note: 1. **Physicians:** There is no secret about the formula of Bio-feron, it is printed on every package. Here it is: Lactin, Calcium Glycero-phosphate, Iron, Potassium, Magnesium, Peptonate, Ext. Nux Vomica, Powder, Gentian, Phosphatidein, Oleoresin Capsicum, Sola.

## How About Your Danger Zone?

YOU'VE got it—every human being is born with it—your large intestine, or colon. It is a large tube—a reservoir or sewer—intended to collect waste matter and remove it from the body.

Plug it up with waste, neglect it, and you're sick on your feet. The waste matter stagnates, undergoes decay, fermentation and germ action. Dangerous poisons are produced, that can easily be absorbed and carried all over the body.

Allow constipation to become established, and you are liable to become definitely and miserably sick—and not on your feet either. You have broken Nature's laws.

Better be kind to her. Keep the danger zone clean, with a regular bowel movement, and Nature will thank you, and pay you back in gold coin—health, good nature, and a feeling of eagerness for your daily task.

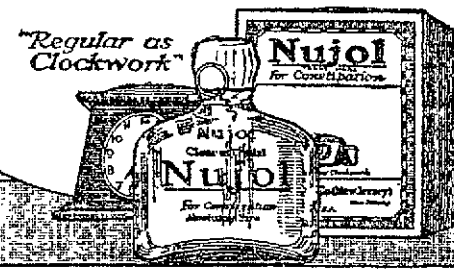

A large proportion of almost every form of sickness is caused or made worse by the poisons produced as a result of constipation.

Nujol has the approval of established medical practice, because it does not upset the system as do pills, castor oil and purgative mineral waters, salts, etc. It softens the contents of the colon, making them easy for the intestinal muscles to move at regular hours. Don't fight Nature. Help her. Nujol is health insurance for tens of thousands of American families today. Sold at drug stores everywhere.

### Warning:

NUJOL is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

Origin of One Proverb.  
One obtains historical glimpses in proverbs. The familiar "Robbing Peter to pay Paul" is said to derive its origin from the fact that in the reign of Edward VI the lands of St. Peter at Westminster were appropriated to raise money for the repair of St. Paul's.

## MILITARY RECORDS OF CONNELLSVILLE BOYS FOR CITY'S HONOR ROLL

The city council of Connelville has authorized the purchase of an Honor Roll, to be erected on public grounds, on which is to be recorded the name of every Connelville boy enlisted in the Army, Navy and Marine Corps of the United States. A place will also be given to all Red Cross nurses in active service.

It is planned to dedicate this Honor Roll with befitting ceremonies sometime before November 1.

If you have a son, a father, a husband, a brother, or an intimate friend whose home address is within the city limits of Connelville, who is now enrolled in some branch of the service, no matter when or where he may have enlisted or otherwise entered, you will perform a public service by filling out the attached Coupon and sending it AT ONCE to Rev. E. B. Burgess, 501 Vine street, chairman of the committee.

According to the terms of the contract for the erection of the roll, only a limited time remains for the furnishing of this information, and it is the desire of the committee that all names shall be represented on the Honor Roll at the time of the dedication.

It is necessary, therefore, that you promptly fill out and return this coupon.
